2018 Candidate Survey Responses

Do you support legislation that would legalize cannabis for adults 21+, and replace the current criminal market for cannabis with a safe, legal, taxed and regulated market?

Yes, I would be willing to sponsor a bill to end prohibition and create a regulated market.

Do you support allowing adults 21+ to cultivate cannabis in the privacy of their home?

Yes, I would be willing to sponsor a bill to allow for home cultivation.

The creation of a regulated cannabis market will divert millions of dollars from gangs and other criminal organizations.

Agree

Cannabis regulation helps deter access to cannabis by minors, by implementing enforcement mechanisms similar to alcohol, such as 'We Card' programs

Agree

Research shows cannabis is objectively less dangerous than alcohol and tobacco.

Response to 2018 League of Women Voters Vote411 Voter Guide

Do you favor legalizing marijuana for non-medical personal use in Delaware?

✓ **The candidate chose not to mark a box**

Explanation: “The legalization of marijuana is an issue with avid supporters who cite the benefits and well as detractors who cite the harm that may result. I am actively listening to the constituents in my district and have been polling on this issue since I have been in office. To date, my district is heavily in favor of legalizing marijuana for recreational use. I will continue to poll my district on this issue and I will vote the will of my district at such time as the vote is before the Senate.”

2018 Candidate Survey Responses

Do you support legislation that would legalize cannabis for adults 21+, and replace the current criminal market for cannabis with a safe, legal, taxed and regulated market?

Yes, I would be willing to sponsor a bill to end prohibition and create a regulated market.

Do you support allowing adults 21+ to cultivate cannabis in the privacy of their home?

I am undecided and would like more information.

The creation of a regulated cannabis market will divert millions of dollars from gangs and other criminal organizations.

Strongly Agree

Cannabis regulation helps deter access to cannabis by minors, by implementing enforcement mechanisms similar to alcohol, such as 'We Card' programs

Strongly Agree

Research shows cannabis is objectively less dangerous than alcohol and tobacco.

✓ **Oppose**

Explanation: "I do not support the legalization of non-medical marijuana use. Our state is already suffering from a drug abuse problem. Problems with increased traffic fatalities and intoxicated drivers are just two of the many problems legalization will bring."

Response to 2018 League of Women Voters Vote411 Voter Guide:

Do you favor legalizing marijuana for non-medical personal use in Delaware?

✓ **Support**

Explanation: “I support legalizing marijuana. However, I know that in supporting such a shift, there must be a shift in so many other institutions to make this work and to ensure that citizens are not negatively impacted by its legalization. The safety of our residents is the highest priority. I view the legalization of marijuana as a possible new funding stream that could help the economy. Additionally, the legalization of marijuana should be accompanied by a reevaluation of our criminal justice system.”

✓ **Support**

Explanation: “I support, in concept legalizing marijuana for nonmedical personal use. We can learn from Colorado and other states who have already legalized marijuana how best to legislate this to avoid the problems that they went through. A Pew Research Center survey indicated that 61% of Americans support the legalization of marijuana. Other recent reports show that marijuana does not contribute to medical diseases such as cancer, heart disease, or pulmonary disease.”

Response to 2018 League of Women Voters Vote411 Voter Guide:

Do you favor legalizing marijuana for non-medical personal use in Delaware?

✓ **Support**

Explanation: "I use alcohol and tobacco as an example. No matter what we have done in the past to prohibit alcohol or to limit tobacco use, people still use these substances. Because we have made them legal, we now tax alcohol and tobacco and use the revenue generated to help people as well as fund the resources to monitor their use as well as handle their misuse. The efforts to keep marijuana out of the hands of people has not been successful. While I am not condoning it's use, it is my thought that if we are able to legalize it and tax it, we will now have revenue from it that could be used in a positive way. Right now, no income is generated from the current use of marijuana and millions of dollars are being spent to combat it. Medical research is continuing to show a variety of benefits from the use of marijuana. I do understand the apprehension in legalizing marijuana. That same apprehension existed around alcohol."

2018 Candidate Survey Responses

Do you support legislation that would legalize cannabis for adults 21+, and replace the current criminal market for cannabis with a safe, legal, taxed and regulated market?

Yes, I support this and would vote 'Yes' on a bill to end prohibition and create a regulated market.

Do you support allowing adults 21+ to cultivate cannabis in the privacy of their home?

I am undecided and would like more information.

The creation of a regulated cannabis market will divert millions of dollars from gangs and other criminal organizations.

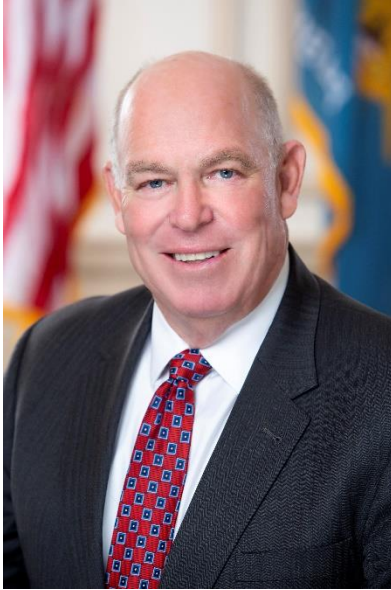

Agree

Cannabis regulation helps deter access to cannabis by minors, by implementing enforcement mechanisms similar to alcohol, such as 'We Card' programs.

Agree

Research shows cannabis is objectively less dangerous than alcohol and tobacco.

Response to 2018 League of Women Voters Vote411 Voter Guide:

Do you favor legalizing marijuana for non-medical personal use in Delaware?

✓ **Oppose**

Explanation: I was a sponsor of medical marijuana and voted for its passage. And, this year, I introduced HB 374 which added glaucoma and cluster migraine headaches as illnesses that were added to our medical marijuana law. I was also a co-sponsor of legislation that decriminalized small amounts of marijuana for personal use. But, at this time, I do not support legalization as it is currently constructed.. I am continuing to listen to the discussion and to the residents of the 14th District, but I have concerns about legalization that would have to be addressed before I could support it. A big concern is that the legislation as written would have created two new divisions of government and created 28 additional state employee positions.

HB 110 6/28/18	Legalizing cannabis for adults 21 and older and creating a regulated market for cannabis.	Yes

2018 Candidate Survey Responses

Do you support legislation that would legalize cannabis for adults 21+, and replace the current criminal market for cannabis with a safe, legal, taxed and regulated market?

Yes, I would be willing to sponsor a bill to end prohibition and create a regulated market.

Do you support allowing adults 21+ to cultivate cannabis in the privacy of their home?

Yes, I support this and would vote "Yes" on a bill to allow for home cultivation.

The creation of a regulated cannabis market will divert millions of dollars from gangs and other criminal organizations.

Agree

Cannabis regulation helps deter access to cannabis by minors, by implementing enforcement mechanisms similar to alcohol, such as 'We Card' programs.

Strongly Agree

Research shows cannabis is objectively less dangerous than alcohol and tobacco.

✓ **The candidate chose not to mark a box**

Explanation: “I am open to considering this issue, and have studied the impact of legalization in Colorado, Washington and other places. However, I am currently opposed to HB 110, due to the lack of a field test for sobriety, which prevents the police from ensuring the safety of motorists, and denies employers the ability to determine whether employees are under the influence of marijuana at any given time, especially those who employ truck drivers, delivery drivers or other automotive-based jobs.”
